I am a highly experienced Shopify developer with over 5 years of experience. I specialize in building custom Shopify themes and apps that are optimized for performance and user experience. My skills include HTML, CSS, Liquid, JavaScript, and Shopify API integrations.

In my previous projects, I have worked with clients from various industries, including fashion, beauty, and electronics. I have successfully built Shopify stores that are user-friendly, fast-loading, and visually appealing. My expertise in Shopify also extends to app development, where I have experience in building custom apps that integrate seamlessly with Shopify's APIs.

I am a problem-solver and a team player, and I always strive to exceed my clients' expectations. I have excellent communication skills and can work with clients remotely or in-person. I am committed to delivering high-quality work on time and within budget.
